## NAPA Hands Out Awards to Missouri Contractors

At the recent National Asphalt Pavement Association (NAPA) Convention, I was encouraged by all the awards Missouri contractors received. Awards were given for large and small projects, community involvement, voluntary environmental improvements to their plant sites and an outstanding website. I know through experience that NAPA does not hand out awards without substantial scrutiny and a detailed analysis of each entry.

I want to personally thank each award winner and congratulate them for their pursuit of excellence and for their willingness to go the extra mile to do quality work. After all, quality is what sells our product.

Check out the awards received by our outstanding Missouri contractors on page 12.

## Did You Know

- Of the 2.3 million miles of paved roads in the U.S., about 94% are surfaced with asphalt.
- In 2002 the estimated production of HMA in the U.S. totaled 550 million tons valued at nearly \$20 billion.
- There are approximately 4,000 HMA plants located in the U.S.
- Overall, the asphalt industry directly or indirectly supports nearly 300,000 employees.
- Asphalt pavement is America's most recycled product. Every year, 73 million tons of reclaimed asphalt pavement are reused, nearly twice as much as paper, glass, aluminum and plastics combined.

# MoDOT Accepts Challenge to Deliver Smooth Roads Initiative A Year Ahead of Schedule

In this year's State of the State address, Gov. Matt Blunt congratulated the Missouri Department of Transportation for its recent accomplishments, and then challenged the department to continue its aggressive work by completing its Smooth Roads Initiative a year early.

"We are very pleased that the governor recognized the progress of MoDOT in his State of the State Address," said MoDOT Director Pete Rahn. "We have worked hard to improve Missouri's transportation system, while improving as an organization. The public can see the results."

The Smooth Roads Initiative is part of MoDOT's Smoother, Safer, Sooner program, an aggressive road-building effort financed by voter passage of Amendment 3 in November 2004. The initiative, begun a year ago, had a goal of bringing the most heavily traveled 2,200 miles of Missouri highways up to good condition by December 2007. The governor's challenge moves that deadline up to December 2006.

"Missouri voters gave us a chance

to shine by passing Amendment 3, and our hard-working employees and contractors have moved quickly to deliver promised improvements," Rahn said. "The governor has called upon us to complete the Smooth Roads Initiative a full year early. This is a substantial challenge. We will make every effort to meet the governor's expectations."

"MoDOT understands that delivering 2,200 miles of smooth pavement is critical to Missouri's future," he said. "There is no doubt 2006 will be the biggest year ever in Missouri's highway history. I applaud Gov. Blunt's commitment to improving transportation in our state."

## Indiana Receives \$3.85 Billion for Toll Road Lease

Indiana recently solicited bids for the long-term lease of the Indiana Turnpike. The winning bid was \$3.85 billion from Australia's Macquarie Infrastructure Group, the world's largest developer of toll roads, and Cintra Concesiones de Infraestructuras de Transporte SA of Madrid. The proposed 157 miles long toll route carries more than 50 million vehicles a year across the northern part of the state. If the deal receives legislative approval, the capital raised will be used for state road improvements and future toll increases will be regulated under the terms of the lease.

Although private investment for roads is uncommon in America, some governors and mayors are looking to private companies to provide money up-front in exchange for long-term leases.

## Quotable Quotes

Aim for success, not perfection. Never give up your right to be wrong, because then you will lose the ability to learn new things and move forward with your life.

— *Dr. David M. Burns*

Golf appeals to the idiot and the child in us. Just how childlike golfers become is proven by their frequent inability to count past five.

MAPA - C.C. Auctioneer Benny Walker of Fabick Companies does another great job. Thanks, Benny.

## Senator Bill Stouffer Named Chairman of Senate Transportation Committee

State Senator Bill Stouffer, R-Napton, was chosen Thursday, December 15, to head the Missouri Senate's committee dealing with transportation issues. Stouffer was named chairman of the Senate Transportation Committee, in just his first year in the Senate, by Senate President Pro Tem Michael Gibbons, R-Kirkwood.

I am honored to have the opportunity to lead this important committee, and I can't wait to get started," Stouffer said. "Transportation is a vital part of our economy and standard of living, and I will work to continue the progress Missouri has made in improving our state roads and highways."

Stouffer earned membership to the transportation panel soon after winning election to the Senate in 2004. The bi-partisan committee helps shape legislation designed to improve the safety and utility of the state's road, river, air and rail transit networks. The Senate Transportation Committee was chaired through the 2005 legislative session by Jon Dolan, who recently resigned his Senate duties to take a post in the private sector. Stouffer's chairmanship is a remarkable achievement for a first-year senator.

Stouffer, a farmer and small-business owner, has a history of dealing with transportation matters. He has served as chair of the board of directors for MFA, a company deeply involved in transporting bulk commodities.

"As a farmer, I drive everything from a tractor to a semi, and I rely on rail and barge. Therefore, over the years I have had a particular interest in transportation issues," Stouffer said. "My district also lies along I-70; in the next few years we will be determining the best way to rebuild and pay for the interstate."

## Missouri Contractors Receive Local & National Awards

The National Asphalt Pavement Association (NAPA) presented several awards to Missouri Contractors.

- The *Sheldon G. Hayes Finalist Award* was given to **APAC-Missouri, Inc.** and the **Missouri DOT** for a project on I-44 East Springfield Missouri.
- A *Community Involvement Award* was given to **Delta Companies, Inc.** of Cape Girardeau, Missouri.
- An *Outstanding Website Award* was given to **Norris Asphalt Paving Co.** of Ottumwa, Iowa. [www.norrisasphalt.com](http://www.norrisasphalt.com)

Quality in Construction Award winners from Missouri were:

- **APAC-Missouri, Inc.**  
Linn Creek, MO
- **Leo Journagan Construction Co., Inc.**  
Springfield, MO
- **Superior Bowen Asphalt Company, LLC**  
Kansas City, MO

Diamond Achievement Awards were given to three Missouri companies

- APAC - Missouri, Inc.  
Columbia, MO
- Delta Companies, Inc. of  
Cape Girardeau, MO
- Fred Weber Inc., St. Louis,  
MO

The Missouri Asphalt Pavement Association (MAPA) Paving Awards went to the following contractors.

- *Highway Work Over 50,000 Tons* was given to **G&M Concrete & Asphalt Co., Inc.** for a project on Route 61 Lincoln and St. Charles Counties
- *Highway Work Under 50,000 Tons* was given to **Leo Journagan Construction Co, Inc.** for a project Route 60 Republic, Greene County
- *Private and Commercial Work APAC* was given to **Missouri Inc.** for Stadium Shoppes, Columbia, MO
- *Surface Treatment Maintenance Award Missouri Petroleum Products* for Microsurfacing on Route 63 in Howell and Oregon Counties.
